

OT Continuing Education - Course List

CE Type 1-Topics are relevant to occupational therapy, but general enough in nature that other professionals might also benefit from it; not usually a course involving learning a new method, technique or modality.

- Videotape on Aggression in Adolescents
- In-service on ADD in 3- 5-year-old Children
- Research on Neuro-motor Control (writing a journal article)
- Subjective Objective Assessment Plan (SOAP) Documentation
- Presentation on Medicare/Medicaid Changes
- In-service on the New PPS Requirements
- CPT Coding
- Self-paced Instruction for Clinical Education & Supervision
- Functional Independence Measures Training
- What is Autism?
- Seminar on Alzheimer's

CE Type 2-Topics are specific to the practice of occupational therapy with patients or clients. A minimum of 15 hours are required for renewal, but all CE may be in Type 2.

- Workshop on NDT Review
- Intervention on Aggressive Behaviors in Adolescents
- Neurodevelopmental Treatment Techniques
- Demonstration of Adaptive Devices for Elderly Populations
- Workshop on an Activity of Daily Living (ADL)
- Intervention for Sensory Processing Disorders
- Feeding Therapy
- Managing Adult Hemiplegia
- Early Childhood Intervention (ECI) Update
- Management of the Shoulder
- Intervention for Developmental Dyspraxia
- OT & Animal-assisted Therapy
- Handwriting Strategies for Students with Learning Disabilities
- Physical Agent Modalities for Hand Patients
- Treatment for Carpal Tunnel Syndrome
- Intervention Strategies for 0-3 year olds
- Feeding for Patients with Dysphasia

- Hippotherapy
- Special Education - Intro to Exceptional Children

The list below is examples of topics considered NOT relevant and NOT acceptable for CE credit. While many of these topics may enrich your relationship with your clients or enhance the success of your practice, they are not required in order for licensees to provide occupational therapy services.
